

# INSTRUCTIONS

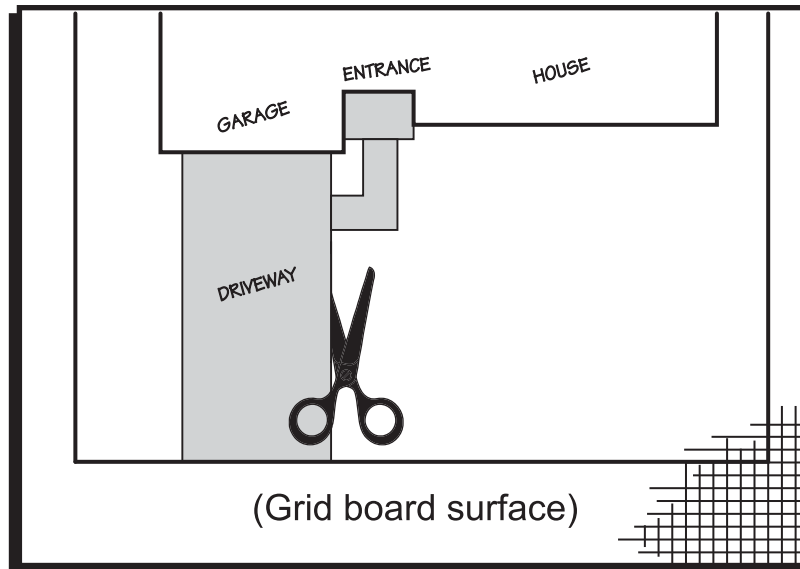

This product is in 1/8" = 1ft Scale.

## 1 DRAW

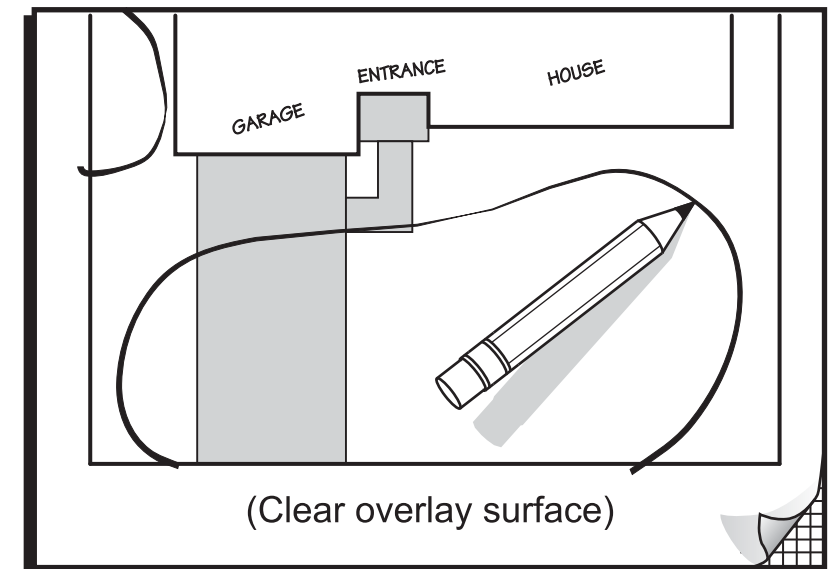

**Draw** property and house outlines on the grid surface. Using the wet erase marker and ruler provided, draw these directly onto the grid board OR place a 1/8" scaled drawing/printout atop the grid board holding it in place with masking tape.

## 2 CUT

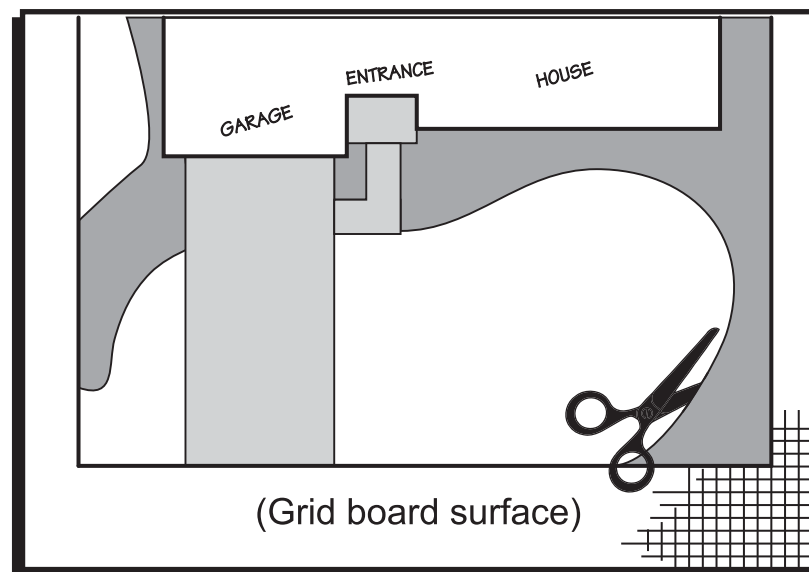

**Cut** and place existing **Hardscapes** on the grid surface. Using the **Vellum** (see insert for details), marker and/or ruler provided, recreate and then cut-out concrete, decking, plant beds or flagstone, you are keeping in your new site plan. Position on grid board.

## 3 SKETCH

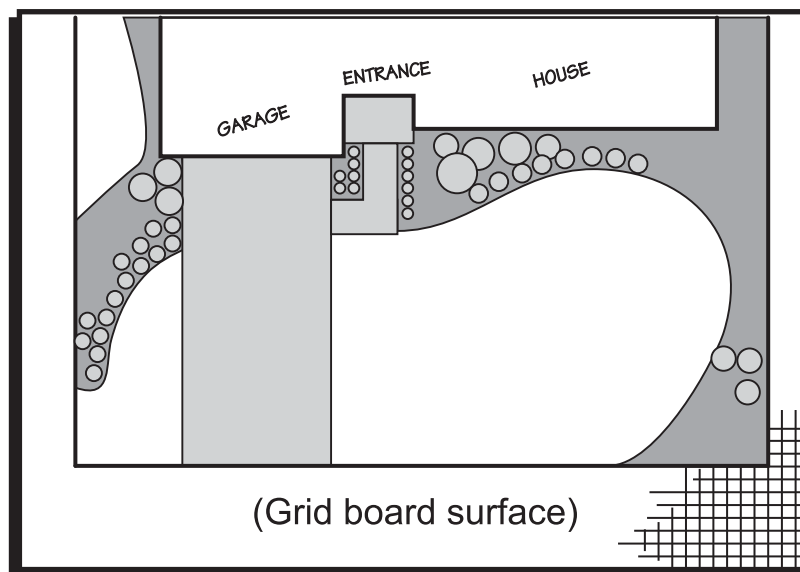

**Sketch** on the clear overlay sheet the basic shape of any **new** plant beds, decking, concrete, and/or flagstone areas, that you would like to add to the site plan using the wet erase marker provided.

## 4 TRANSFER

**Transfer** the desired shape of decking, plant beds, concrete or flagstone using the **Vellum sheet** (see insert for details) onto the **Texture sheets** OR use ruler and wet erase marker to draw shapes directly onto **Texture sheets** and then cut them out. Place on grid board.

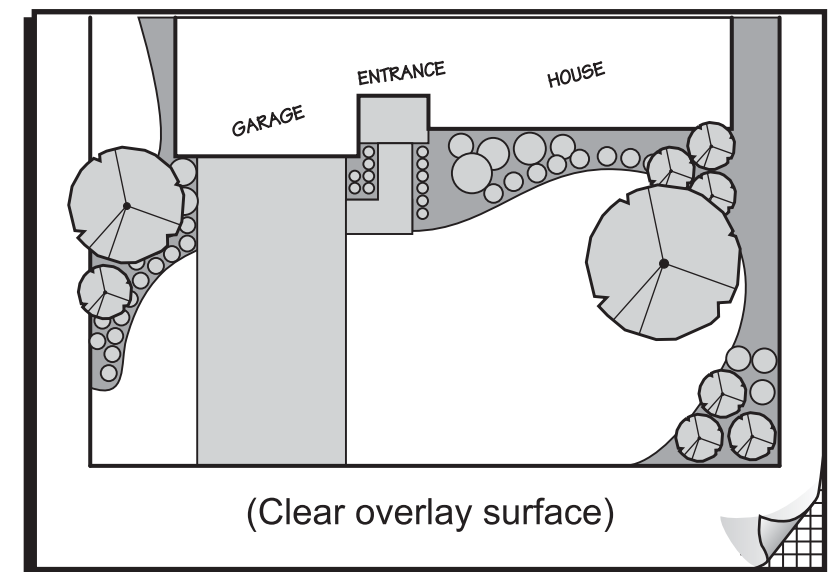

## 5 MAGNETS

**Magnets**, may now be placed on the grid board. The magnets are designed to be used directly on the grid surface or on top of any textures (i.e. magnetic plants on plant bed texture).

**Tip:** Photocopy when finished to save your ideas.

## 6 STATIC CLING

**Clean** previous "sketches" off the clear overlay sheet using a damp cloth.

**Draw** rocks, fencing, and palms on to the clear overlay sheet using the ruler templates provided.

**Static Cling** trees can now be placed onto clear overlay sheet in addition to the drawn items.
