

# What Did I Just Buy?

# What Is The Board™?

The Board™ is a truly unique and convenient tool to aid in space-planning. The patented system uses scaled (1/4" = 1'-0") magnetic symbols representing over 90% of the most popular shapes, styles and sizes in the office & residential furniture industries. Each system comes with everything you need to do ON-THE-SPOT professional drawings.

The Board™ was developed for use by planning professionals requiring fast, accurate high-quality drawings of repetitive symbol groups such as those found in residential & office furniture room planning.

The main advantage behind the success of The Board™ planning system is simple: using it saves valuable time & effort when preparing furniture drawings & specifications.

## If you sell or plan with furniture you can...

- ✓ Prepare detailed high-quality drawings in seconds or minutes
- ✓ End customer-confusion by showing what will fit (& what won't!)
- ✓ Make pricing & "take-offs" from drawings faster and easier - most magnetic symbols show item type & size
- ✓ Prepare detailed moving and installation drawings

## If you are planning your own home or office you can...

- ✓ Visualize just how your new or existing furnishings will fit in your home or office before buying or moving
- ✓ Pre-plan all of your rooms (or office areas) in stages for future changes or upgrades.
- ✓ Prepare detailed mover's diagrams of exactly where and how you want your furniture positioned.

Whatever your reasons for purchasing The Board™, you will undoubtedly derive immediate benefits from its use.

- Increase Sales Potential
- Quick, Quality Output Without CADD
- No Training Required
- A Portable Planning System
